The Senior Raiders

The Senior Raiders, shown above will provide the leadership for Coach Coty Dickerson's bid for a Semifinal District baseball championship this spring. From left, Jay Franklin, who made All District First Team in Center Field last year, is in his fourth year; Buddy McFadden, a three- year veteran, co-captain, who will be playing in left field; Andy Wingfield, also in his fourth year, serving as co-captain, will be behind the plate. Andy was honorable mention All District in 1976 and 1977; Mike Wooten, All-District First Team Second Baseman last year will be playing his fourth year and will handle some of the pitching chores.

The Raider season opener will be at Randolph Henry High School Monday with the first home game at the Middle School field Tuesday at 4:00 p.m. against Buckingham.

The team batting practice has received a boost this spring from the pitching machine, above center, a gift from the A.C.H.S. Athletic Boosters Club.

Coach Dickerson is being assisted by Coach Charles Wilkerson.

Alcoholism Workshop For Professionals

Three Lynchburg agencies have combined their efforts and are offering an Alcoholism Workshop for professionals who work with youths. The workshop will be held Monday and Tuesday, April 3 & 4 at Central Virginia Community College.

Miss Sue Holland, Director of DASH, is coordinating the workshop. Other sponsors are CASE (Community Alcohol Service & Education) and ARC (Alcohol Rehabilitation Center) at Forest.

The two day workshop will run from 9 a.m. to 4:30 p.m. Lunch is provided. Cost for the workshop is $5.00 for lunches and $1.00 for the continuing education credits.

The workshop will include films, lectures, small group discussions, role playing, interviewing of clients. A pre and post test of alcoholism will be given to those attending.

Among the theory presentations are Values and Attitudes about Youth & Alcohol Psychological Effects of Alcohol, Physiological Aspects of Alcoholism, Problem Drinker versus Alcoholic, The Effects of Combing Alcohol and Marijuana.

Miss Holland stated that the workshop does have a limited enrollment and she encourages members of community professional agencies to register immediately. Registration information may be secured by calling DASH office at 528-1265.

Goals of the workshop are:

1. To understand how alcoholism develops.
2. To gain knowledge and be able to identify danger signals of alcoholism among young people.
3. To identify the problem drinker versus the alcoholic.
4. To explore one's attitudes and values toward alcoholism.
5. To gain assessment skills in initial interview.
6. To gain knowledge of sources for referral and procedures for referral. Representatives of a number of agencies who provide services for teenagers with alcohol problems will tak about their programs and what specific services they can offer the community.

The workshop is specifically designed to aid probation officers, social workers, and school counselors.

A similar workshop was held in December and was well attended. There was a request for a repeat and this is what the April workshop is, stated Miss Holland.

Rita Ferguson

Elected Longwood Region FBLA Vice-President

"Taste the Sweetness of Success, Vote for Rita Ferguson for Longwood Region Vice-President." That's what Brenda Bowling, Shelley Davidson, Frances McFaden and Cathy Tanner cheered at the Longwood Regional Competition Saturday, March 11, 1978. Sharon Roach, as campaign manager for Rita, made a speech telling all of Rita's attributes as a person and what an excellent vice-president she would make. All of this campaigning must have had an effect on the other voting delegates because Rita was elected vice-president for the 1978-79 session.

Rita is a very active member of the Appomattox Chapter Future Business Leaders of America. She is chairman of the Who's Who in FBLA Committee and chooses the girl of the month for each meeting. She also participated in the Public Speaking Contest at Longwood and we know she will make an outstanding vice-president for the Longwood Region. Congratulations, Rita!

Easter is fast approaching and along with the Easter celebrations are family gatherings. If you're the host this year, now is the time to plan your menus.

You may decide to serve traditional fare, ham or lamb. Pork is expected to be in plentiful supply through March so shoppers should find ham featured by retailers beginning one to two weeks before Easter. If company is staying or children are home from school, leftover ham will be a bonus. Sandwiches, ham biscuits, omelets, ham salad and casseroles are just a few delicious ways to use leftover ham. Lamb offers a taste treat for the family. A leg of lamb with mint jelly is sure to please any guest or family member.

Your menu plans may call for turkey. Predicted to be in adequate supply for March, shoppers now find good selections of turkeys of all sizes, both basted and regular, available all through the year.

Beef could be your choice. Supplies for March are predicted to be plentiful. Shoppers will find retailers featuring a variety of beef cuts, both small and large that will satisfy any size family and budget. More retailers are featuring "freezer" or whole cuts on a regular basis. Elevate your immediate and future needs as well as freezer space available. Between now and Easter you will see a variety of whole cuts that could fit your needs. Popular whole cuts offered are tenderloins, bottom rounds, sirloin tips and top sirloins.

Now all you need to do is decide which meat to plan your holiday meal around. Retailers will be featuring both "traditional" and non-traditional meats. Take advantage of featured items at your local supermarket.

ENERGY SAVING IDEAS

Helpful Tips

You can save energy cooling your house by using the same things that help you save when heating your house: storm windows. Kept on windows not needed for ventilation, they help keep cool air in, warm air out.

* * *

The Department of Energy has estimated that proper attic insulation can save up to 30 percent of heating and cooling bills, since heat tends to rise and escape through an insufficiently insulated roof. The same insulation reduces the need for cooling by keeping out the sun's heat.

* * *

You can find a number of energy-wise suggestions in a new booklet "Energy and Your Home." Edited by famed science writer Isaac Asimov, it's available from York Heating and Air Conditioning, Department 14, P. O. Box 1592, York, Pa. 17405.

Changing Lifestyle

OVERCOMING THE MS 'STRIKE'

BY SHERRY SWINSON
Reprint from the Farmville Herald)

She's young and attractive and spends most of her time in a wheelchair. But sympathy need not be extended her way for she's far passed that in more ways than one.

Robin Britton is a victim of multiple sclerosis, the "cripler of young adults" and has had the disease for a little over six years. It most commonly strikes those between the ages of 20 and 40 and affects the central nervous system.

"I graduated from Longwood in 1971 as an elementary education major," explained Mrs. Britton. "And I began teaching that next August. I had my first attack of the disease soon after I'd started teaching and the doctors told me I'd have to stay out for a while. I think I was more upset about having to stop teaching than I was about the sickness though."

"I have the greatest amount of faith in my doctor," said the Prospect resident of Dr. Thomas McPherson Brown, the head and founder of the Arthritis Institute and chief of staff at its host Nathional Orthopaedic Hospital in Arlington.

She has saved various news clippings following the latest research findings involving MS and among them are several concerning Dr. Brown. It seems that Brown's patients (about 5,000 of them from as far away as Switzerland and the Virgin Islands) are all devoted to him.

"Since I've been going to him I have a lot more energy and feel a lot better," reported Mrs. Britton. "And I even have my own rabbit! Out of the 5,000 patients he has, only about ten of us have our own rabbits (for testing in the laboratory). They take a culture and give it to the rabbit and find what type of antibodies he builds up against it. But they don't do anything that would hurt him."

SURPRISE PARTY

Mrs. Britton recently celebrated her 29th birthday - surprise party style, which was arranged by her husband, Bill, Town Manager of Appomattox. The two who met via blind date, were married exactly 6½ years ago on Valentine's Day. "I don't mind telling my age this go around - but next year will be the biggie," she said with a grin.

Mrs. Britton is a big pet lover and spends some time training dogs for her own enjoyment. The Britons have three dogs - a labrador retriever, named Bo; a mixed Beagle and Weimaraner, Doe; and Hans Hummer von Britton, who is a Weimaraner, a name derived from the dog's native homeland in Weimar Germany. They also have two fan-tailed goldfish known as "Fender Vittles" and "Whisker Likin's."

KEEPS BUSY

When she's not tending to the pack, she finds time to cook, work on crafts, and read. "I love to try new recipes and its good because Bill will eat them," she said.

Recently she spoke to Longwood students in a home economics class who visited her in her home to see how she arranged her kitchen. "They asked me if I did anything different and I really had to stop and think! I do keep the things I use real often down low, but other than that: I think it's just a regular kitchen.

She also enjoys canoeing and going on outings in her motor car. "When Bill goes ice skating he takes me along and pulls me on the sled, which is great fun," she explained.

Canoeing is a favorite not only of her's but also of her husband's and because their home is located right on the Appomattox River, they have easy access to their mode of travel.

"Once we went out on the river and Bill took along his chain saw to cut away any obstructions" Mrs. Britton reminisced. "Well we had no sooner put out when we ran up on a huge log laying across the river, so we just sat there for a while. Finally, I said 'I guess the only thing for me to do is get up on the log and wait for you to go over it.' Bill said he'd thought of that but he was waiting for me to mention it myself. Well, I did it, but I felt like one of those old-timey movies where the villian ties the girl to the railroad tracks."

"Actually," she said smiling. "I think I can do anything everybody else can do . . . it just takes a little longer."

Outstanding FHA Officer of Month

The outstanding officer for the month of February has shown cooperation and leadership throughout the year.

In the summer and fall she attended the State Leadership Conference in Roanoke, the Officers Training Workshop at Rustburg, the Mini-Conference at Altavista, and all executive council meetings.

She helped plan and prepare the spaghetti luncheon for the faculty and the educational booth for the Five County Fair. She served at the FFA Hub Federation dinner, the Little League Football banquet, the basketball banquet and helped with the FFA-FHA volleyball tournament.

She worked with potential officer candidate for next year, helped plan the spring, FHA dance and as a special project she has been active in a babysitting service for the Appomattox Chapter, Young Homemakers of America.

The outstanding officer for the month of February is Sam Adderson. Congratulations Sam!!!

EVERGREEN 4-H CLUB

The March meeting of the Evergreen 4-H Club was held March 14, 1978 at the home of Kim Maxwell.

Shelia Carrico, vice president of the club, called the meeting to order. Kim Maxwell and Tambra Hamlet led us in our pledges.

Minutes of the previous meeting were read and approved.

Rebecca Doss and Kim Maxwell led us in a game and song.

Under the old business, Miss Hudson talked about Pine Seeding orders, and the Inter State Exchange Program. We planned the Ruritan supper for Thursday night. Our club would like to thank each parent that helped.

For our program, Duane Hamlet gave a demonstration on "Sand Art."

Afterwards everyone joined in refreshments and fellowships.

Our next meeting will be at the home of Mr. and Mrs. Lewis Harvey (Anita and Charlene's parents).
